

**BÜFA Chemicals
for Coatings and Construction**

New Chemistry. Next Generation of Coatings.

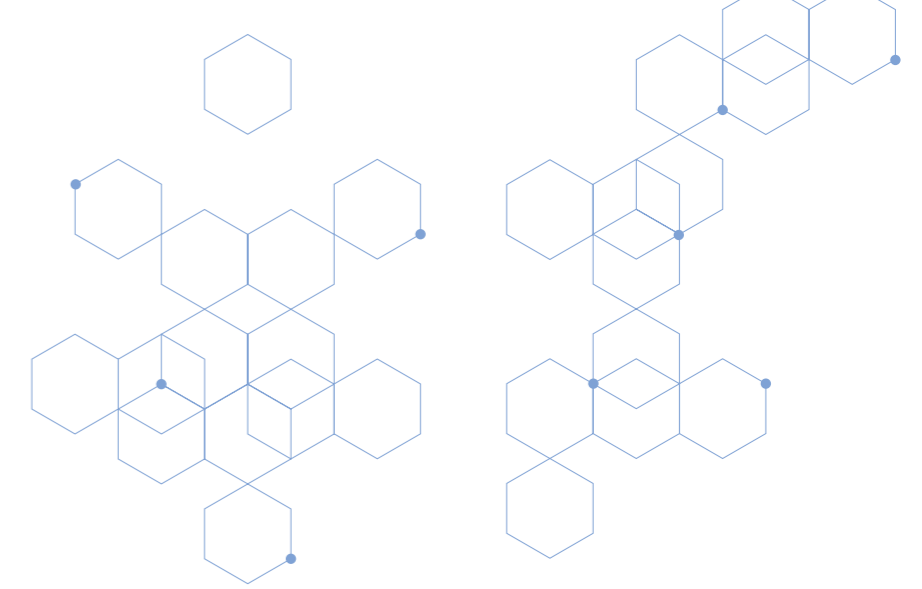

**Entdecken Sie jetzt unser
komplettes Produkt- und Serviceportfolio**

Your Partner for Chemical Raw Materials in the Coatings Industry

BÜFA Chemicals is the business unit of the BÜFA Group, bringing together BÜFA Chemikalien and Vivochem. Our comprehensive portfolio of raw materials for the coatings industry includes a carefully selected range of solvents and basic chemicals—complemented by specialty products such as additives and binders, as well as sustainable alternatives for future-oriented production.

With many years of experience, state-of-the-art production facilities, and dedicated personal contacts, we develop tailor-made and flexible solutions to meet your requirements while offering you the best service.

Your strong and reliable partner for high-quality raw materials and customized solutions.

PAINT & COATINGS MANUFACTURING

Solvents and basic chemicals for high-performance, low-emission products – from decorative paints to highly functional industrial coatings.

PLASTICS & ADHESIVES INDUSTRY

Solvents and specialty chemicals for reliable adhesive and plastic formulations—designed for flexible and high-performance applications.

INDUSTRIAL COATINGS

Efficient raw materials and high-performance solvents for optimized adhesion, fast drying, and durable surface protection.

AEROSPACE INDUSTRY

High-purity solvents, corrosion protection solutions, and specialty chemicals for coatings that meet extreme durability and safety requirements.

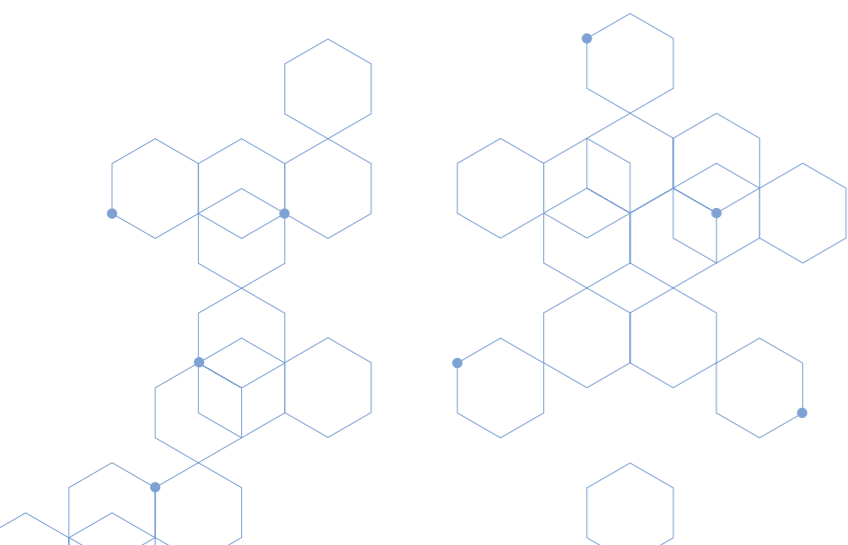

AUTOMOTIVE INDUSTRY

Raw materials for scratch-resistant, chemical-resistant, and long-lasting automotive coatings—tailored to modern requirements, including VOC-reduced solutions.

MARINE & SHIPBUILDING

Corrosion protection solutions and durable raw materials for resilient marine and ship coatings—including environmentally friendly alternatives.

Products and Services to Help You Tackle Even the Most Demanding Market Challenges with Confidence.

BÜFA Chemicals

Your Trusted Partner

for High-Quality Raw Materials Since 1883!

BÜFA Chemicals is a business unit of the BÜFA Group, bringing together BÜFA Chemikalien and Vivochem. Since 1883, we have been trading chemicals and leveraging this extensive experience to provide our customers in the coatings industry with comprehensive and expert guidance.

The BÜFA Group's portfolio offers a wide range of solvents and basic chemicals, as well as additives, resins, and binders for high-performance coating systems. This selection is complemented by sustainable alternatives, including bio-based raw materials, low-VOC, and styrene-free solutions – enabling future-oriented formulations.

Our services go beyond chemical distribution: We provide secure storage, flexible logistics, and efficient filling solutions. With in-depth expertise in international chemical trading, we reliably support you in global sourcing and export.

Your Partner for Sustainable and Future-Oriented Solutions.

Your Expert Support for Regulatory Compliance and Safety.

Your Partner for a Secure and Flexible Raw Material Supply.

Working with BÜFA Chemicals Means: Tackling Market Challenges with a Strong Partner.

The market is facing major challenges: sustainability and emission reduction, volatile supply chains, and increasing regulatory requirements are shaping the entire industry.

With our products and services, we provide reliable, flexible, and future-oriented solutions to help you successfully meet these demands.

Sustainable Raw Materials for Innovative Coatings

BÜFA Chemicals supports you with a portfolio of environmentally friendly alternatives for future-proof formulations.

- Bio-based raw materials for more sustainable paints and coatings
- Low-VOC and styrene-free solutions that comply with regulatory requirements
- Validated Product Carbon Footprint (PCF) to optimize your CO₂ balance
- Sustainable sourcing strategies that balance environmental and performance demands

Reliable Raw Material Supply & Flexible Logistics

The availability of raw materials is crucial for smooth production. BÜFA ensures stable supply chains.

- Buffer storage and just-in-time delivery to prevent shortages
- Flexible filling solutions tailored to your production requirements
- A strong supplier network to ensure consistent raw material availability
- Outsourcing services for secure storage and reliable call-off

Regulatory Compliance & Technical Consulting

Compliance with strict regulations is essential in the coatings industry. BÜFA provides comprehensive support for regulatory requirements.

- Consultation on environmental and safety standards (e.g., REACH, VOC, etc.)
- Access to sustainable alternatives to replace critical substances
- Support with certification and compliance processes
- Technical expertise for customized formulations and product optimization

Sustainable Solutions

Bio-Based Raw Materials from the BÜFA Chemicals Portfolio

Efficient alternatives with reduced environmental impact: We provide high-performance solutions for eco-friendly coatings and industrial applications—without compromise.

Bio-Based Solvents

Conv. Solvents	More Ecological Alternative	Properties & Benefits
Acetone, Xylene, MEK	Bio-Ethyl Acetate Bio-Monopropylene Glycol	CO ₂ reduction through renewable raw materials, biodegradable

Low-VOC Solutions

Conv. Solvents	More Ecological Alternative	Properties & Benefits
Acetone, DCM, NMP	Rhodiasolv® Polarclean Rhodiasolv® ADMA 810 & 10	Not listed as VOC in EMEA, high flash point, low health risk

Diester-Based Solvents

Conv. Solvents	More Ecological Alternative	Properties & Benefits
Methyl Chloride Cyclohexanone Texanol	Rhodiasolv® IRIS Rhodiasolv® RPDE Rhodiasolv® DIB	Biodegradable, non-toxic, high solvency power for resins & polymers

Multifunctional Solvent Blends

Conv. Solvents	More Ecological Alternative	Properties & Benefits
Dichloromethane d-Limonene	Rhodiasolv® Infinity Rhodiasolv® Strip	Versatile for cleaning & coating solutions, reduced VOC emissions

Choose Future-Proof Raw Materials – With These Benefits:

- Reduce your CO₂ footprint
- Formulate low-VOC and future-ready solutions
- Benefit from high solvency power and versatility
- Meet current environmental and safety regulations
- Focus on innovation instead of compromise

BASIC CHEMICALS

SOLVENTS

2-Hydroxyethylmethacrylate
Butyl Acetate
Cyclohexanone
Dibasic Ester
Diethanolamine
Glycerin
Isobutyl Acetate
Methoxypropyl Acetate
Methylene Chloride
Monoethanolamine
Monostyrene
n-Heptane
n-Methylpyrrolidone
Perchloroethylene
Propylene Carbonate
Solvent D40
Solvent D60
Solvent DPNB
Solvent DPNP
Solvent EPH
Solvent Naphtha
Solvent PNB
Solvent TPM
Specialty & Test Gasolines
Toluene
Triethanolamine
Triethylamine
Xylene (Isomeric Mixture)

ESTERS

Ethyl Acetate
Methyl Acetate

ACIDS & ALKALIS

Hydrochloric Acid
Phosphoric Acid
Potassium Hydroxide Solution
Potassium/Sodium Water Glass
Sodium Hydroxide

GLYCOLS & ETHERS

2-Butoxyethanol (Butyl Glycol)
Butyldiglycol
Butyldiglycol Acetate
Butylglycol Acetate
Butyltriglycol
Diethylene Glycol
Dipropylene Glycol
Dipropylene Glycol Dimethyl Ether
Dipropylene Glycol Methyl Ether
Ethylglycol
Hexylene Glycol
Monoethylene Glycol
Monopropylene Glycol 1.2
Polyethylene Glycol
Polypropylene Glycol
Propylene Glycol
Triethylene Glycol

KETONES

Acetone
Methyl Ethyl Ketone (MEK)
Methyl Isobutyl Ketone (MIBK)

ALCOHOLS

1-Methoxy-2-Propanol
2-Butanol (Secondary Butanol)
2-Ethyl-1-Hexanol
Benzyl Alcohol
Diacetone Alcohol
Ethanol
Isobutyl Alcohol (Isobutanol)
Isopropyl Alcohol (Isopropanol)
Methanol
n-Butanol
n-Pentane

Know Your PCF – Reduce Your PCF

Continuously evaluating and reducing CO₂ emissions offers you numerous advantages:

- Demonstrate social responsibility
- Protect the livelihood of future generations
- Operate and grow sustainably
- Strengthen trust with customers and partners
- Quantify the environmental impact of your products
- Establish a solid data foundation for ecological product positioning

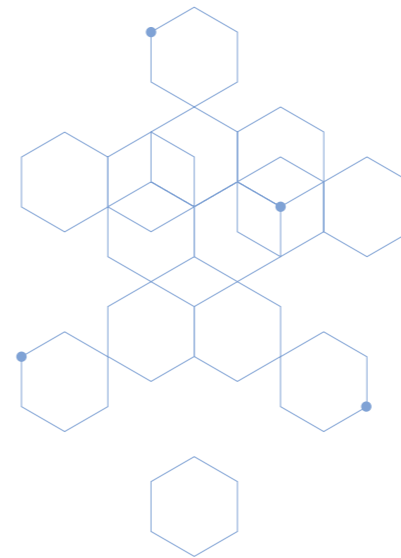

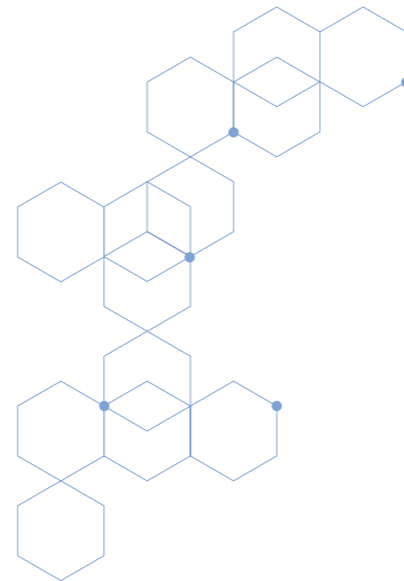

BÜFA not only provides PCF data for your raw materials, but we also offer expert guidance on alternative products with lower PCF and support you in implementing a forward-thinking and sustainable CO₂ strategy.

Take action now – with BÜFA as your strong partner for a sustainable CO₂ strategy in the coatings industry.

700 EMPLOYEES
with 1 vision

14 LOCATIONS
in 8 countries

200.000 TONS
quantity per year

BÜFA Group Across Europe Experts in Chemicals

State-of-the-art production facilities for consistent quality

Reliable supply chain solutions for maximum availability

Strict quality and safety standards for secure coating products

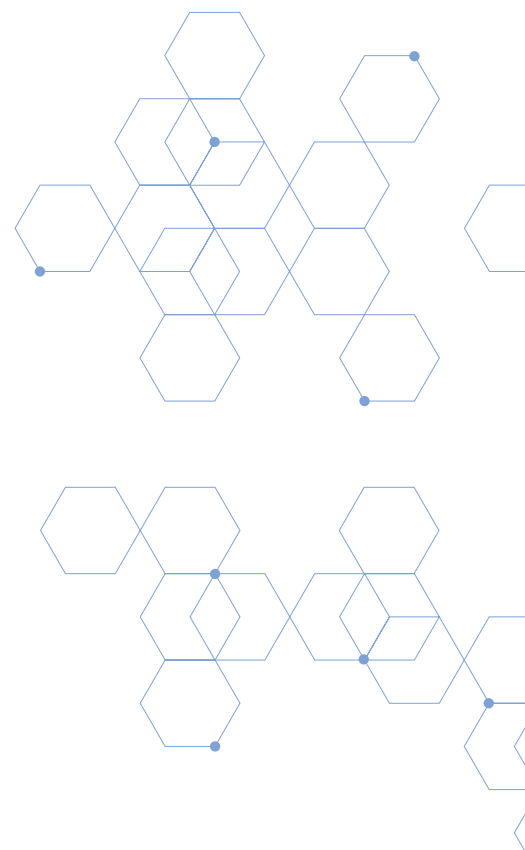

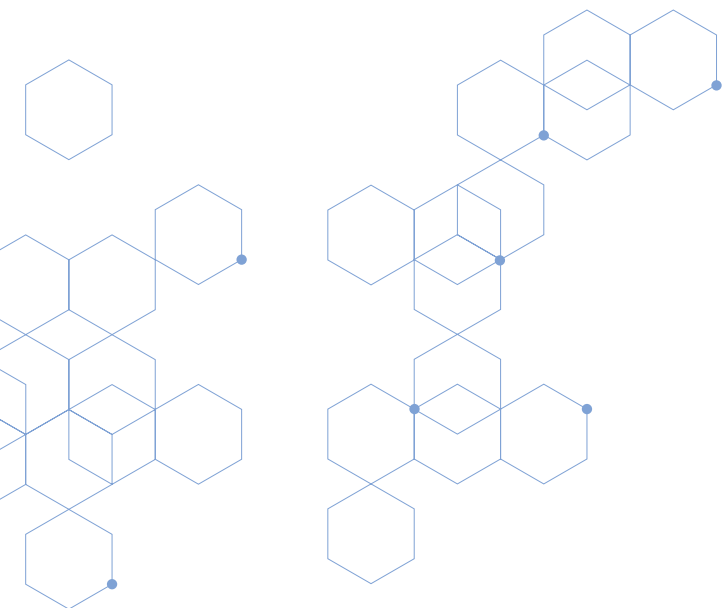

The BÜFA Group – Chemical Expertise with a Strong International Presence

With 14 locations across Europe, we ensure flexible and reliable raw material supply for our customers. Our state-of-the-art production facilities, extensive network, and robust supply chain make us a trusted partner for the coatings industry.

Responsibility That Counts! BÜFA Group Awarded with EcoVadis Gold Status

- Certified sustainability for a future-proof supply chain
- Reliable partner with the highest environmental and social standards
- Enhanced safety & compliance for your sustainable products
