Products and services that enable you to confidently master even the most demanding market challenges.

BÜFA Chemicals

Your Reliable Partner for Secured Raw Material Supply

BÜFA Chemicals unites the companies BÜFA Chemikalien, Vivochem, and Tricura. Since 1883, we have been trading in chemicals and using our expertise to provide comprehensive advice to our customers. You benefit from a broad portfolio, ecologically certified products, secure processes, numerous sustainability initiatives – and our comprehensive outsourcing service.

Overcoming Market Challenges with a Strong Partner.

The chemical industry and manufacturing companies in the Home Care and I&I sectors face numerous challenges today. Fluctuations in raw material markets, increasing regulatory requirements, and complex supply chains make reliable raw material supply a key task.

With BÜFA Chemicals, you have a partner who understands these challenges and offers you individual and flexible solutions with our products and services.

Outsourcing with BÜFA Chemicals: Flexibility and Security for Your Raw Material Supply

Custom Drumming:

Our permanent, qualified staff ensure precise and secure drumming into cans, drums, and IBCs. We offer both fully automated and manual filling processes according to GMP+ and HACCP-certified standards – tailored to your specific requirements.

Secure Storage:

With around 30,000 pallet spaces in our state-of-the-art hazardous materials warehouses at our European locations, we ensure the compliant storage of your products. Storage areas separated according to TRGS 510 and thermal units provide optimal storage conditions.

Flexible Distribution:

We take care of demand-based retrieval, picking, and delivery. Your goods are delivered safely and flexibly, either in part or in full, directly to you or your customers – thanks to our powerful fleet and extensive network of logistics partners.

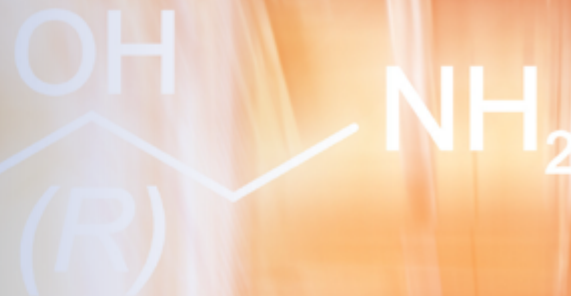

Reliable International Supply:

We ensure that your raw materials arrive safely and on time in international markets by providing reliable global export solutions tailored to the specific requirements of each country.

Your Benefits with BÜFA's Outsourcing Service:

- Purchase bulk quantities strategically, fill in flexible amounts, and store securely.
- Flexible delivery: Retrieve and deliver your raw materials on demand.
- Minimize raw material dependencies: Reduce risks from market fluctuations.
- Global delivery: Reliable supply of your raw materials to international locations.

Increasing regulatory requirements pose challenges for many companies. BÜFA Chemicals is your reliable partner, fully compliant with all legal regulations – from custom drumming and secure storage to flexible delivery of your raw materials.
