New Chemistry Next Generation of Coatings

Sustainable Raw Materials

Bio-based. Validated PCF Data. Future-ready.

BÜFA Group supplies bio-based solvents, surfactants, and dispersing agents for future-proof coatings – along with VOC-reduced binders and low-emission additives. Our validated Product Carbon Footprint (PCF) helps optimize the CO₂ balance. Complemented by flexible logistics and storage solutions, as well as expertise in chemical exports and contract filling of hazardous materials. We ensure a stable supply of raw materials – for high-performance and sustainable formulations.

Advanced Composite Solutions

Reduced Styrene. Smarter Resins. Next-Level Fire Protection.

BÜFA Composites delivers high-performance solutions for fiber-reinforced plastics with reduced styrene content, innovative fire protection systems, and sustainable resins. Our BÜFA®-Firestop technology sets new standards in fire safety and meets the highest international regulations. Low-styrene and bio-based resin systems enable low-emission production processes. With customized solutions for transportation, construction, and industry, we are driving the next generation of smart composite materials.

High-Performance Cleaners

Low VOC. Reduced Emissions. Maximum Efficiency.

BÜFA Cleaning provides high-performance, low-emission cleaning agents for the paint and coatings industry. Our VOC-reduced and water-based solutions effectively remove printing inks, coatings, and adhesives – ensuring clean production facilities and consistent quality. With tailor-made cleaning concepts, we optimize processes and reduce costs. Whether manual or machine-based, our cleaners deliver maximum efficiency with minimal environmental impact.

BÜFA Group Across Europe Experts in Chemicals

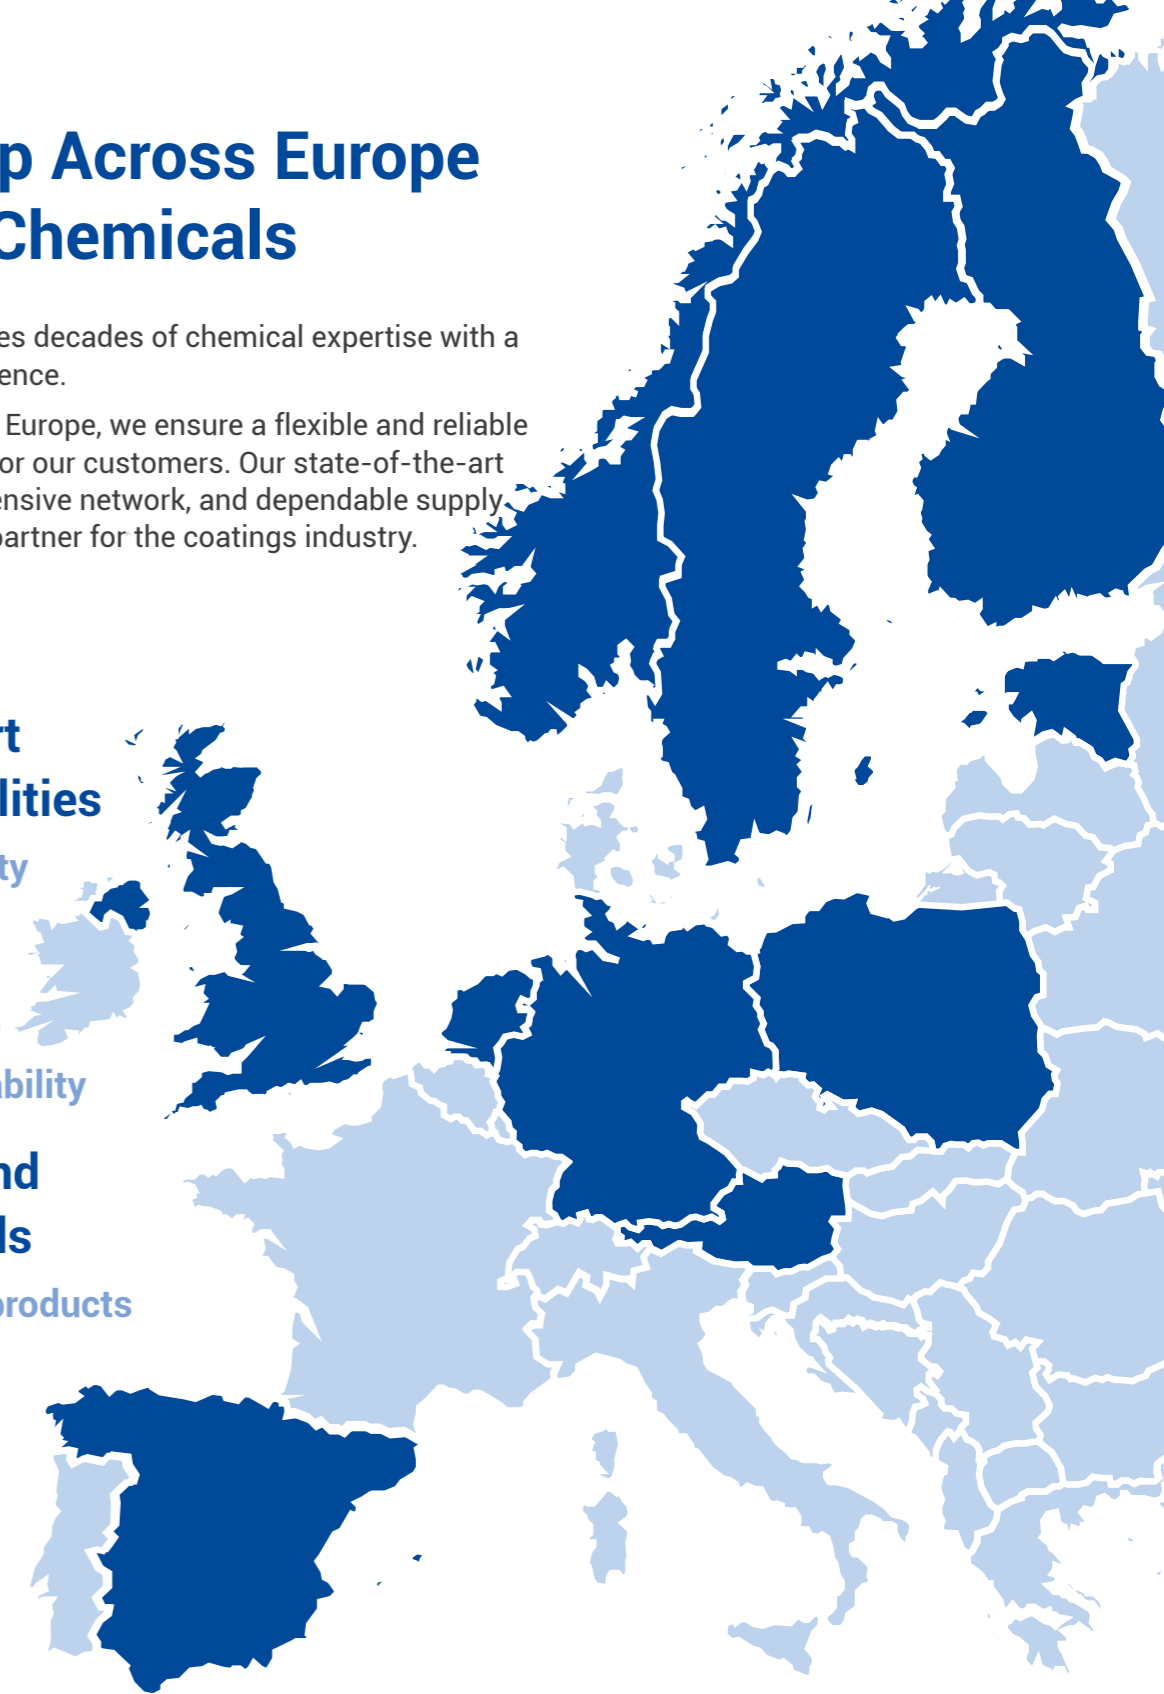

The BÜFA Group combines decades of chemical expertise with a strong international presence.

With 14 locations across Europe, we ensure a flexible and reliable supply of raw materials for our customers. Our state-of-the-art production facilities, extensive network, and dependable supply chain make us a strong partner for the coatings industry.

**State-of-the-art
production facilities**
for consistent quality

**Reliable supply
chain solutions**
for maximum availability

**Strict quality and
safety standards**
for secure coating products

700 EMPLOYEES
