

BÜFA

BÜFA Chemicals
for Home Care and I&I

New Chemistry for Next-Level Cleaning Solutions

**Discover our complete
product and service portfolio today.**

Chemicals

Your partner for high-quality raw materials for the cleaning products industry

BÜFA Chemicals is the business unit of the BÜFA Group, which unites the companies BÜFA Chemikalien and Vivochem. Our comprehensive portfolio of raw materials for the detergents and cleaning products industry includes numerous ecologically certified chemicals – ideal for sustainable and future-proof products.

With many years of experience, dedicated personal support, and a high degree of flexibility, we develop tailor-made solutions for your requirements and provide you with the best service.

Your reliable and strong partner for high-quality raw materials and custom solutions.

HOUSEHOLD CLEANING AND DISHWASHING PRODUCTS

Optimal surfactants and chelating agents for all-purpose and specialty cleaners.

HAIR AND BODY CARE PRODUCTS

Gentle amphoteric and non-ionic surfactants for premium care products.

TEXTILE CARE AND CLEANING

We offer you an ideal combination of surfactants and phosphonates.

DISINFECTANTS AND HYGIENE CLEANERS

Find out more about our notified and registered biocidal products from BÜFA.

CLEANING PRODUCTS FOR INDUSTRY AND HOSPITALITY

Surfactants, phosphonates, and solvents – designed to support your needs.

CAR WASH AND MAINTENANCE

Silicates, solvents and surfactants - powerful raw materials for your products.

Products and services that enable you to confidently master even the most demanding market challenges.

BÜFA Chemicals

Your Partner for High-Quality Raw Materials since 1883!

BÜFA Chemicals is the business unit of the BÜFA Group, which unites the companies BÜFA Chemikalien, Vivochem, and Tricura. Since 1883, we have been trading in chemicals, leveraging our extensive experience to provide professional support to our customers. Our portfolio offers a broad selection of raw materials for the detergent and cleaning products industry, including numerous ecologically certified solutions to help you develop sustainable and high-performance products.

Our range of services goes far beyond chemical trading: We offer highly efficient filling, secure storage, and flexible distribution of your raw materials. In addition, our team possesses the in-depth knowledge and expertise needed to provide you with reliable solutions for all your export business needs. This enables us to supply the chemical industry worldwide with a comprehensive range of basic chemicals and specialties.

Your partner for sustainable solutions and ecological products.

Your competent support for regulatory and safety requirements.

Your partner for secure and flexible raw material supply.

Working with BÜFA means: Overcoming Market Challenges with a Strong Partner.

The Home Care and I&I market faces major challenges: Sustainability and environmental protection, stricter regulatory requirements, and less reliable supply chains are key issues that companies need to address. With our products and services, we offer you individual and flexible solutions that reliably support you in meeting these requirements.

Ecologically Certified Raw Materials for Sustainable Success

BÜFA enables you to act more sustainably and offer ecological products to your customers. Learn more about it:

- Ecological certifications (e.g., Ecocert) for many of our products
- Validated Product Carbon Footprint (PCF) to manage your CO₂ emissions
- EcoVadis Gold Status and Responsible Care certification
- Integrated sustainability strategy of the BÜFA Group based on the SDGs

Competent Support for Regulatory and Safety Compliance

BÜFA supports you in meeting strict legal requirements to protect both people and the environment. Benefit from:

- A large and experienced product safety team at two locations
- Support in sourcing and evaluating new chemicals
- Our notified and registered biocidal products
- ISO 14001 and ISO 9001 for the highest quality and safety standards

Security and Flexibility for your Raw Material Supply

BÜFA ensures a reliable raw material supply to guarantee smooth production. Rely on us for:

- Outsourcing services for safe storage and flexible call-off options
- Customized filling into various container sizes to suit your production needs
- A reliable network of suppliers across Europe and the world
- Reliable supply chain to keep your raw materials consistently available

TENSIDOL®

Powerful and Sustainable Surfactants

With Tensidol®, we offer you a comprehensive range of high-quality surfactants for a wide variety of applications in the detergent and cleaning industry. Our amphoteric, anionic, and non-ionic surfactants are specifically designed to ensure outstanding cleaning efficiency, gentle formulations, and high environmental compatibility for your products.

AMPHOTERIC SURFACTANTS

Tensidol® CAPB MB 
Cocamidopropyl-Betaine

Tensidol® LAO
Lauryldimethylamine Oxide

ANIONIC SURFACTANTS

Tensidol® KNA 40
Potassium Sodium Cumene Sulfonate Solution 40%

Tensidol® LAS
Dodecylbenzenesulfonic Acid

Tensidol® NA 40
Sodium p-cumenesulphonate

Tensidol® SLES 28% MB
Natriumlaurylthersulfat

Tensidol® SLES 28% UP MB
Natriumlaurylthersulfat

Tensidol® SLS MB 
Natriumlaurylsulfat

NON-IONIC SURFACTANTS

Tensidol® APG 0810 50 MB
Alkylpolyglycoside

Tensidol® APG 0810 65 MB 
Alkylpolyglycoside

Tensidol® APG 0810 70 DK MB
Alkylpolyglycoside

Tensidol® APG 1200 MB 
Alkylpolyglycoside

Tensidol® APG 425 N MB
Alkylpolyglycoside

Tensidol® APG 600 MB 
Alkylpolyglycoside

Tensidol® APG 650 MB 
Alkylpolyglycoside

Tensidol® APG 818 MB 
Alkylpolyglycoside

Tensidol® LAE
Laurylamin + 10EO

SURFACTANTS WITH ECOLOGICAL CERTIFICATION

Some of our Tensidol® products are already Ecocert certified – this guarantees that our surfactants meet strict environmental standards and are produced sustainably. Additionally, the suitability of many of our raw materials for meeting EU Ecolabel requirements is documented. For you, this means less effort with extensive certification processes and greater trust from your customers in the quality and environmental compatibility of your products.

Sequadol® & Phosphodol®

For Optimal Product Performance

The Sequadol® products are particularly environmentally friendly and highly efficient in binding hardness ions, resulting in improved stability and effectiveness of your product formulations.

With Phosphodol® products, you rely on powerful corrosion inhibitors and stabilizers that ensure long-lasting protection and optimized performance.

CHELATING AGENTS

Sequadol® GLDA 38% 
Glutamic Acid Diacetic Acid

Sequadol® GLDA 47% 
Glutamic Acid Diacetic Acid

Sequadol® MGDA 40% 
Methylglycinediacetic Acid

Sodium Gluconate

PHOSPHONATES

Phosphodol® ATMP 50%
Amino Trimethylene Phosphonic Acid

Phosphodol® DETPMP 25%
Diethylene Triamine Penta (Methylene Phosphonic Acid)

Phosphodol® DETPMP 32%
Diethylene Triamine Penta (Methylene Phosphonic Acid)

Phosphodol® DETPMP 47%
Diethylene Triamine Penta (Methylene Phosphonic Acid)

Phosphodol® HEDP 60%
Hydroxyethylidene Diphosphonic Acid

Phosphodol® PBTC 50%
Phosphonobutane Tricarboxylic Acid

NEW TO OUR PORTFOLIO: Sequadol® MGDA 40% Sustainable and Efficient Chelating Agent

With Sequadol® MGDA 40%, we are expanding our portfolio with an exceptionally versatile and environmentally friendly chelating agent. Thanks to its high biodegradability and Ecocert Detergents certification, Sequadol® MGDA 40% stands out as a sustainable alternative to conventional chelating agents.

These properties help you develop environmentally friendly formulations and respond to the growing demand for ecological cleaning products.

BASIC CHEMICALS

SOLVENTS & AMINES

2-Butoxyethanol (Butylglycol)
Acetone 
Butyldiglycol (BDG)
Butyldiglycolacetate
Butyltriglycol
Diacetone alcohol
Diethylene glycol
Dipropylene glycol (DPG)
Ethanol
Ethanol nat. 
Ethoxypropanol
Ethylacetate
Ethylidiglycol
Hexyleneglycol
Isobutylalcohol
Isopropylalcohol (Isopropanol)
Methanol
Methoxypropylacetate
Monoethanolamine
n-Butanol
n-Propanol
Petroleum Ether
Solvent DPM
Solvent DPnB
Solvent PnB
Solvent TPnB
Triethanolamine

SALTS & PH REGULATORS

Citric Acid 
Monopotassium Phosphate
Monosodium Phosphate
Sodium Chloride
Sodium Bicarbonate
Sodium Bisulfate
Sodium Sulfate
Sodium Tripolyphosphate
Trisodium Citrate 
Trisodium Phosphate
Trisodium Phosphate Dodecahydrate
Tetra Potassium Pyrophosphate

STABILIZERS & ADDITIVES

Zinc Chloride
Zinc Oxide

SILICATES & BUILDERS

Potassium Silicate
Sodium Silicate
Sodium Metasilicate Pentahydrate
Sodium Tripolyphosphate
Tetra Potassium Pyrophosphate

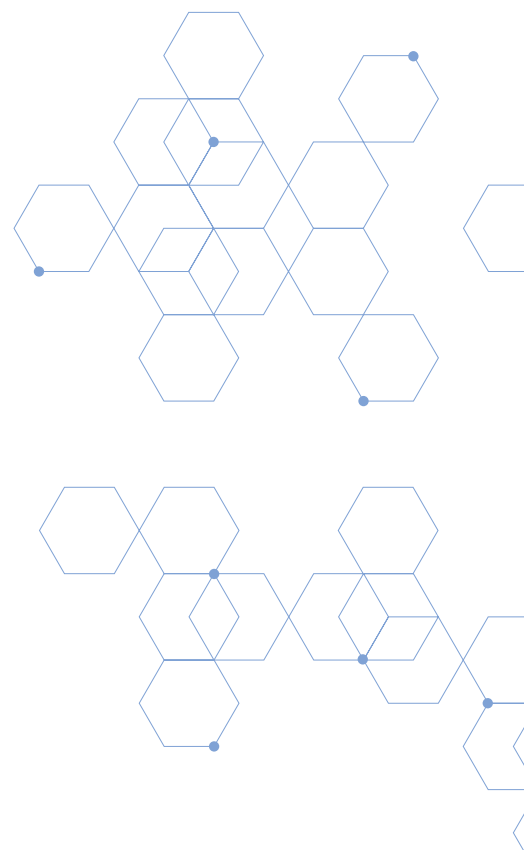

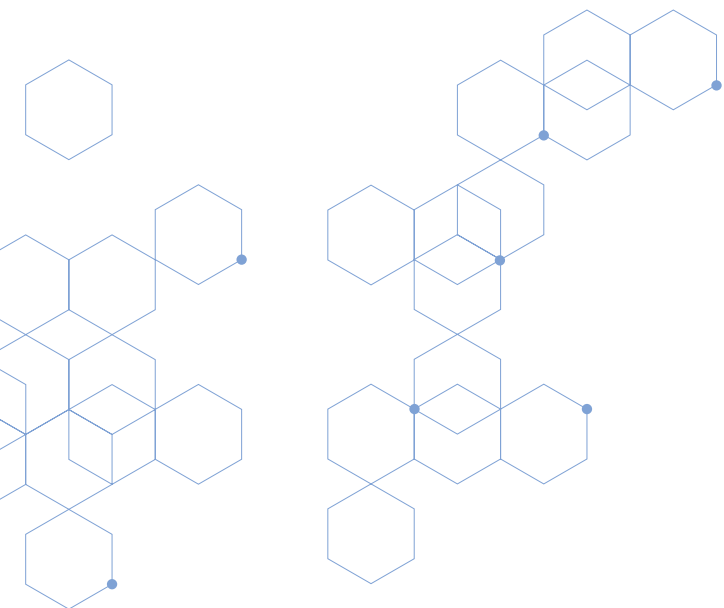

ACIDS & BASES

Acetic Acid
Amidosulfuric Acid
Ammonia Solution
BÜFA® Desinfect HYPO 2400
Sodium Hypochlorite Solution approx. 12%
Citric Acid 
Formic Acid
Hydrated Lime
Hydrochloric Acid
Lactic Acid
Nitric Acid
Phosphoric Acid
Potassium Hydroxide
Potassium Hydroxide Solution 
Sodium Hydroxide Solution 
Sodium Hydroxide Pellets
Oxalic Acid Dihydrate
Sulfuric Acid
Tetrafluoroboric Acid
Trisodium Citrate 

HUMECTANTS & CARRIERS

Diethylene Glycol
Dipropylene Glycol (DPG)
Glycerine 
Monoethylene Glycol
Monopropylene Glycol 
Polyethylene Glycol 200
Polyethylene Glycol 300
Polyethylene Glycol 400
Polyethylene Glycol 600
Triethylene Glycol
Tripropylene Glycol
